PROFESSIONAL SUMMARY

UI/UX Designer and Frontend Developer with 4+ years of professional experience designing and developing digital products across finance, healthcare, enterprise, SaaS, and consumer applications. Experienced in translating business requirements into intuitive user experiences through user flows, wireframes, high-fidelity interfaces, prototypes, and design systems. Strong understanding of responsive web design and frontend implementation, with hands-on experience working with modern web technologies including React, Next.js, Tailwind CSS, Bootstrap, and WordPress. Experienced in collaborating with clients, developers, and cross-functional teams throughout the product development lifecycle.

CORE SKILLS

UI/UX Design: User Experience Design, User Interface Design, Product Design, UX Research, User Flows, Wireframing, Prototyping, Responsive Design, Design Systems, Information Architecture, Interaction Design, Usability Improvements, Design Handoff

Design Tools: Figma, Adobe XD, Adobe Photoshop, Webflow, WordPress, Sketch, Framer

Frontend Development: HTML5, CSS, SCSS, JavaScript, React (Entry Level), Next.js (Entry Level), Tailwind CSS, Bootstrap, React-Bootstrap, Material UI, Ant Design

Development & Collaboration: Git, GitLab, Storybook, WordPress, Jira, VS Code, Docker

PROFESSIONAL EXPERIENCE

Thapovan Info Systems — UI/UX Designer

June 2022 – Present

- Design user interfaces and end-to-end user experiences for web and mobile applications across multiple business domains.
- Translate business and functional requirements into user flows, wireframes, prototypes, and high-fidelity UI designs.
- Create responsive interfaces and reusable design patterns for desktop, tablet, and mobile experiences.
- Develop and maintain design systems covering typography, colors, buttons, inputs, forms, navigation, cards, modals, and other reusable components.
- Collaborate closely with developers and project teams to ensure accurate implementation of approved designs.
- Participate in requirement discussions and convert complex workflows into clear and user-friendly interfaces.
- Design product flows for finance, enterprise, healthcare, consumer, and SaaS applications.
- Create interactive prototypes in Figma to communicate user journeys, interactions, and product behavior.
- Work with frontend technologies to understand implementation constraints and support design-to-development handoff.
- Contribute to improving existing product interfaces through usability, consistency, accessibility, and responsive design considerations.

Thapovan Info Systems — UI/UX Design Intern

April 2022 – June 2022

- Assisted in designing user interfaces and user flows under the guidance of senior designers.
- Supported wireframing, prototyping, and high-fidelity UI design tasks for ongoing projects.
- Gained hands-on exposure to design systems, client requirements, and design-to-development handoff processes.

KEY PROJECTS

Paltalk

- Designed interfaces and user flows for a PWA-based communication product.
- Worked on onboarding, authentication, account creation, profile management, room directory, room joining, chat, video grid, camera/microphone interactions, room preview, and member management experiences.
- Created reusable design components and supported light and dark theme requirements.
- Worked with React, Next.js, and Tailwind CSS as part of the product implementation workflow.

Vumber

- Contributed to UI/UX design and interface development for the Vumber product.

- Worked on responsive layouts, reusable components, and user-oriented product flows.

SME Finance / Oman Finance Platform

- Designed finance-related digital experiences for an Oman-based financial services platform.
- Worked on customer loan journeys, eligibility, credit evaluation, eKYC, OTP, verification, repayment-related flows, service requests, and dashboard experiences.
- Designed customer-facing and operational interfaces while maintaining consistency across the product ecosystem.

Casagrand

- Worked on UI/UX design for customer-facing digital experiences.
- Translated business requirements into structured user flows and responsive interfaces.

GSquare

- Contributed to interface design and product experience development.
- Worked on responsive UI patterns and user-focused workflows.

Reuzzi

- Contributed to UI/UX design and interface development.
- Worked on product screens, interaction patterns, and responsive layouts.

Reimbursify

- Worked on user interface and experience design for the product.
- Created structured workflows and responsive interface designs.

IPM

- Worked on WordPress-based website design implementation.
- Converted Figma designs into responsive website interfaces and worked with existing WordPress environments.
- Collaborated on UI updates and frontend implementation while maintaining consistency with approved designs.

PAMCO Jan Aushadhi

- Designed the website in Figma for PAMCO Jan Aushadhi, a generic-medicine retail outlet, covering the homepage, store locator, medicine catalog, and informational pages about affordable generic drugs.
- Focused on a clean, accessible layout suited to a wide range of users, with clear navigation and responsive behavior across devices.
- Handed off structured design assets to support smooth frontend implementation.

Scout / Prayag.ai

- Scout is a recruitment automation platform developed in collaboration with Prayag.ai, screening resumes against job requirements, conducting facial-biometric-verified knowledge assessments and AI-driven conversational interviews, monitoring for malpractice, and generating an AI-backed candidate evaluation report.
- Role: Designed the Scout application and its dashboard.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering

July 2016 – April 2020

Nehru Institute of Technology, Coimbatore | Anna University | CGPA: 6.93 / 10

Higher Secondary Education

June 2014 – March 2016

Govt. Model HSS, Calicut University Campus | Percentage: 75%

SSLC

March 2014

MHSS Moonniyur, Malappuram | Percentage: 98%
